2026 HSITP GRAND OAKS

JULY 18-19 SHOW INFORMATION

Attention Riders and Trainers....

The July HSITP show is an abbreviated schedule of what is normally presented at each month's show...due to the heat and weather concerns.

Normally at an HSITP show, the hunters, equitation and jumpers ride each day, so that almost a "separate show" is provided each day. Sometimes a horse if it's competing in a division ie; Modified...may have the opportunity to jump up to 5-7 courses if they do a warm up, a medal/classic, two hunter and two Equitation rounds over fences. We would like to continue to provide competition both days, but have shortened the schedule in July to Hunters on Saturday and Equitation on Sunday. To answer the concern that someone may have relative to "having something to ride in each day" we offer Classics and Medals each day that if you're riding Sat in the Hunters, you'll be able to ride in the Hunter classics on Sunday. Same story with Equitation. It's offered on Sunday in divisional format but on Saturday there are Eq Medals to go in. Or a Hunter Derby course. We believe this will require fewer jumping efforts for our horses in the hot summertime weather. Our Covered gate staff will be comprised of Miss Bri and Dakota, with Alex and Cassie in the Triple Crown and Denise potentially in the Annex. Jeanne will float back and forth between arenas.

Jumpers will continue to be offered both days up to 3'3", however 2'3" and higher is offered in only 2 classes each fence height and in the Covered Arena. We'll have a combination of our jumper jumps in the Covered and hunter fences with striped poles and fun courses out of the hot sun. We'll have extra jump crew on hand, and monitor the footing to ensure safety and quality. Yes, the hunter fences with their striped poles may be a bit fluffy, but it didn't seem to bother the jumper riders who switched into the Covered arena at the June Sunday show when the skies flooded the Jumper arena and cancelled 2'6 and above...so we'll anticipate summer rains, be ready for it and it probably won't.

For our Triple Crown riders we'll take the same format, and insert the 2' and below Jumper classes in the Triple Crown which has excellent footing in the rain and lots of shady ingate space under the Oaks to get out of the sun. By using two arenas we'll cut down on ring conflicts, lower the stress level and allow us to get through a hot Florida day of horseshowing.

NO JACKETS at this show! Pre entry is very important, as we want to be able to set a schedule and stick to it without a lot of last minute adds..so if you're thinking of shipping in for a few classes, please *by all means pre enter* to allow us to see if there's an entry tsunami coming and make any schedule adjustments prior to Friday. We can always add another arena if entries warrant so we're not showing as in "Horse Shows in the Dark"...Note we've added the opportunity to show in certain Marshall & Sterling classes twice at this horse show for those looking for additional M Sterling League points.

This show is double pointed for HSITP Year end Award, so be sure and check the updated points through June to ensure you're also on track with show day eligibility and to see where you're at in the points...

Any questions about the schedule should be directed to show management at 321-693-5551

OPTIMUM TIME INFORMATION

At HSITP, we score and place our Jumpers that jump Ground Poles up to .60m (2'), on the basis of “Optimum Time”. This is a time that is as a result of cantering the course at an efficient speed of generally 350 meters per minute. Each course is wheeled, and then a calculation is made to obtain the Optimum Time for that course. Per USEF guidelines, 4 seconds is then deducted from that calculated time.

Times of completion are noted by the judge, and then the class is placed according to the riders who came closest to the optimum time, either higher or lower and taking into consideration any faults incurred due to downed rails.

The Optimum time approach is good for the lower fence height levels and provides an emphasis on getting to each fence accurately and efficiently, at a good even cantering pace. We DON'T believe a “time and faults” approach works at the lower levels because it encourages dangerous, fast riding at the lower levels of rider proficiency, which may lead to falls and an unsafe performance. This Optimum Time approach has been adopted by USEF at levels up to and including .85m (2'9”).
